

5-Star Environmental Recognition Program for Indiana's Vehicle Maintenance Shops

MENTOR LIST

As part of the 5-Star Environmental Recognition Program, shops earning all 5 stars can volunteer to serve as mentors to others in the industry. While providing assistance to the vehicle maintenance industry, IDEM has learned that, often times, other shops within the industry serve as the best source of information. The shops listed below can provide you with information regarding how they comply with the regulations, help identify vendors that carry specific products or perform needed services, and provide information regarding industry trade associations.

In addition to contacting any of the following shops, feel free to contact IDEM's Compliance and Technical Assistance Program (CTAP) at 317/232-8172 or toll free at 800/988-7901 for confidential assistance.
